Ad hoc Committee site/SCA - Milam

US EPA RECORDS CENTER REGION 5

412262

A Preliminary Assessment Form (USEPA Form T2070-2) has been completed for the subject site.

In reviewing the information and discussing the site with its IEPA inspector, Perry Mann, this site is deemed low priority. The reasons for the low priority rating are as follows:

1. IEPA makes surprise inspections about two (2) times per mo.
2. Water samples from the monitoring wells, the canal to the northwest, and the creek that runs through it are taken about two (2) times per year.
3. The site is currently in litigation.

The Illinois EPA is monitoring this site closely, and therefore not other action is needed.
